

Shaf Manzur

917-705-6598 | shafayatmanzur@gmail.com | U.S CITIZEN | New York, NY

Education

University at Buffalo, SUNY

Buffalo, NY

Bachelor of Science in Computer Science

May 2026

- Relevant courses: Discrete Structures, Data Structures and Algorithms, Systems Programming, Computer Organization, Algorithms and Complexity, Linear Algebra

Experience

Software Engineer Intern

New York, NY

DevelopForGood - ClimateDonor.Org

June 2024 - Present

- Developed and implemented a modal system for 15+ team and board member profiles, increasing user engagement by an estimated 30%
- Optimized image loading and display for 20+ profile pictures, reducing page load time by approximately 15%
- Refactored JavaScript codebase, decreasing code complexity by 25% and improving maintainability

Android Developer Intern

Garden City, NY

Nassau Community College - LibreFoodPantry

March 2023 - May 2023

- Implemented **REST API** calls for guests checking in, increasing throughput by **100%** during peak hours
- Applied **AGILE** development principles, scrum/sprints, and weekly standups
- Collaborated with the administration of Nassau Community College, incorporating specified requirements

Projects

Community Life Alert System | Next.js, TailwindCSS, Supabase, Figma, OAuth | **HackPSU**

- Developed a cohesive UI for **CommunitySOS**, a website enabling users to send and receive localized SOS alerts
- Recognized for **Best React Hack** at HackPSU for the use of React in building a socially impactful platform

XML Data Converter CLI | Node.js, Jest, npm

- Developed SVGosu, a Node.js command line tool to convert SVG paths intoosu! game objects & vice versa
- Implemented **test driven development (TDD)** using Jest, achieving **99.9% accuracy** on conversions from path data to game objects, ensuring seamless integration of new features and optimizations

Radial Pattern Designer | Javascript, HTML, CSS, WebGL

- Developed a tool for graphic designers to import vector path data and create radial patterns
- Implemented shaders written in WebGL to improve performance on low-end devices by over **60 FPS**

Technical Skills

Languages: Java, Javascript, HTML/CSS, C++, Python, SQL, PostgreSQL, Bash

Frameworks: Next.js, React.js, Node.js, TailwindCSS, MongoDB, Firebase, SQL Server

Tools: Git, Google Cloud, AWS, Figma, Gradle, Webpack, Linux, Microsoft Office, Excel

Supporting Experience

Codepath Intermediate Technical Interview Prep
